How to Catch the Bus

KRT will pick up passengers at all stops along our routes in cities we serve. Most stops are designated by blue and white KRT bus signs. Passengers in rural areas may flag a bus to be picked up by holding their arm straight out, palm down, to let the driver know you need to be picked up. For safety reasons, avoid flagging the bus at major intersections or immediately before a stop sign or left turn lane marking. When a bus approaches, look at the route and destination sign above the windshield to make sure you are boarding the correct bus. When the operator stops, wait for passengers to exit, then board the bus when it is stopped and do not prepare your exact fare into the fare box, as operators are not allowed to handle fares. KRTA fans use both smart cards and coins. Then have a seat, relax and leave the driving to us.
